

Year 5 Home Learning. Week Beginning 06.07.20

English	Maths	Other
<p>Speaking and Listening I can work cooperatively in a group. Play a game with people. For example, Pictionary, Charades or a board game.</p>	<p>Handling Data I can find out about information presented in bar charts, pictograms, tables and line graphs. Watch this clip and this clip to review your understanding about how to present data. Make a poster to show the different ways that you can present data.</p>	<p>Science I know that some solids can be retrieved from a solution by evaporation. Find out about reversible and irreversible changes here and complete the 3 activities. Talk about what you have learnt with an adult.</p>
<p>Reading I have a secure awareness of genre and literary traditions. The Game is a short fantasy adventure story. You can also listen to the story. Complete the activities as you read the story.</p>	<p>Handling Data I can read and interpret line graphs. You are going to focus on line graphs. Download this pack and work through the powerpoint using your reasoning and problem solving skills.</p>	<p>Physical I can consider team skills and develop tactics for attacking and defending. Research a sport you enjoy, or a sport you would like to learn. Think about tactics you could use to develop your attacking and defending skills. Play the game with your family.</p>
<p>Writing I can write in the style of an author. In 'The Game' story, Billy spots the game on the shelf at the end. In the same style as this author, write a story about what happens to Billy when he plays the game. There are ideas to help you at the end of the link.</p>	<p>Handling Data I can solve comparison, sum and difference problems using information presented in a line graph. Choose some of the varied fluency questions from this pack. Record your answers on paper/in your book or print the sheets. The correct answers are at the end, so you can check your learning.</p>	<p>ICT I can stay safe on the internet. Join the adventures of SMART crew to learn about how to stay safe online.</p>
<p>Word, sentence, grammar I can punctuate most sentences correctly, including dialogue using inverted commas/speech marks. Watch the speech marks clips and complete the activities. Have you used speech in your 'Game' story? Check you have punctuated it correctly.</p>	<p>Handling Data I can solve comparison, sum and difference problems using information presented in a line graph. Choose some of the reasoning and problem solving questions from this pack. The answers are at the end, so you can check your learning. Talk about the strategies you used with someone in your house.</p>	<p>Creative I can develop my choice of tools, techniques and materials to communicate ideas. Watch this clip and use it as inspiration to create your own coffee art.</p>
<p>Spelling I can explore and spell words with prefixes. (words with ir and il) Words to learn: irregular, irresponsible, irrelevant, irresistible, irreplaceable illegal, illogical, illegible. Play some activities with these words here.</p>	<p>Handling Data I can solve comparison, sum and difference problems using information presented in a line graph. Review your learning from this week. Collect or make up some data of your own to create a line graph. Think of questions that someone could answer using your graph.</p>	<p>Social skills Fun time – play a clapping game such as 'Who stole the cookies from the cookies in the jar?' with your family.</p>
