

Manx language games on Oodlu.org

To play Manx language games on the Oodlu website, pupils need to create their own student account. This allows them to practise the activities set to their group by their teacher and to play the games.

Getting started is easy; all you need to do is go to <https://oodlu.org/> and click on the “Log in” button (top right). Click on "Register" and select the “I'm a student” option. Choose and type in your own username (**not your real name!**) and password (make sure you make a note of these somewhere safe, e.g. on this sheet). Then type in your group code (according to your year group), agree to the terms of service and privacy notice and continue.

Pupils in Year 4 or 3/4: Please use group code: 134n

Pupils in Year 5 or 4/5: Please use group code: q7r3

Pupils in Year 6 or 5/6: Please use group code: r6x8

Now you can access your group's question collection (and games) either by logging in on the website or by using the app (available free on the Apple App Store and Google Play).

Have fun and learn some more Gaelg!!!

Tannee sauçhey! Stay safe!

C. Koenig (Manx teacher)
